Medical Diagnostic Sonographer

Location: Twin Falls, ID 83301

Company: Innovative Medical Imaging/Radiology Associates

Job Type: Part-Time & Full-Time

Job Description:
Overview

- We are seeking a skilled and compassionate Sonographer to join our outpatient imaging clinic team. The ideal candidate will be responsible for performing diagnostic imaging procedures using ultrasound technology to assist in the assessment and diagnosis of various medical conditions. This role requires a strong understanding of anatomy, physiology, and medical terminology, as well as the ability to communicate effectively with patients and healthcare professionals.

Duties

- Perform high-quality ultrasound examinations in accordance with established protocols and standards.
- Utilize medical imaging techniques to capture images of organs, tissues, and blood flow for diagnostic purposes.
- Communicate effectively with patients to explain procedures, address concerns, and ensure comfort during examinations.
- Maintain accurate patient records and documentation of ultrasound findings.
- Collaborate with physicians and other healthcare staff to discuss imaging results and contribute to patient care decisions.
- Adhere to aseptic techniques and safety protocols to ensure a safe environment for patients and staff.
- Stay updated on advancements in sonography technology and techniques through continuous education.

Qualifications

- Proficient knowledge of sonography principles, medical imaging practices, and diagnostic radiology.

- Strong understanding of human anatomy, physiology, and medical terminology.
- Excellent communication skills to effectively interact with patients and healthcare team members.
- Experience in patient care, demonstrating empathy and professionalism in all interactions.
- Ability to work independently as well as part of a collaborative healthcare team.
- Familiarity with aseptic technique practices is preferred.
- Certification from an accredited sonography program is required; relevant certifications such as ARDMS or CCI are required.

Join our dedicated team where your expertise will make a significant impact on patient health outcomes through exceptional diagnostic imaging services.
